PRECAUTIONS

- Do not expose the unit to rain or moisture to avoid the risk of fire or electric shock.
- Do not touch the power plug when your hands are wet to avoid risk of electric shock.
- Do not remove the case. Accidentally touching an internal part may result in serious electric shock.
- If a metal object such as a hair pin or a needle comes into contact with the power socket on the rear panel, a dangerous electric shock may occur.
- Keep children away from the unit, to avoid unnecessary risk of harm to the child.
- Always remove the plug from an AC outlet by pulling on the plug, not the cable.
- Position the AC cable so it will not be stepped on, tripped over, nor subjected to damage.
- Plug the AC cable only into a grounded AC outlet.
- Unravel the AC power cord before use.
- In case of an abnormality in the equipment, ensure the equipment is plugged into an outlet that can be easily accessed, so that the plug may be disconnected from the outlet.
- To avoid equipment damage, do not connect to a transceiver that operates on a voltage other than 13.8 V DC or exceeds the current rating.
- Do not expose the unit to long periods of direct sunlight, nor place it close to heating appliances.
- Do not place the unit in excessively dusty and/or humid areas, nor on unstable surfaces.
- Do not block the power supply air vent. Do not cover the unit. To maintain good ventilation, place the unit at least 10 cm (4 inches) away from the wall.
- Do not use solvents such as benzene or paint thinner to clean the unit. Use a silicone or a clean, dry cloth.
- Do not install this equipment in a constricted location, such as a book case.
- If you detect an abnormal odor or smoke coming from the unit, turn OFF the power immediately and disconnect the power cord. Contact your **Kenwood** service center or dealer.

ORIENTATION

Front Panel

Power switch

Press this switch to turn the power ON and OFF.

Rear Panel

- This power supply is for use with a transceiver. Do not use the power supply with other products.
- Before connecting the DC power cable to the transceiver terminal, or removing it from the terminal, turn the power supply power OFF.
- For connection instructions, refer to the transceiver instruction manual.
- When placing the power supply beside the transceiver, adjust the power supply bail to an appropriate angle. You can further use commercially available rubber pads/ feet to adjust the angle to match that of the transceiver.
